

**AIR-serv is the worlds leading specialist supplier of tire inflation equipment for the petrol forecourt market. Our unique revenue share program provides the following benefits:**

- *No capital costs for you.*
- *AIR-serv installs and maintains the equipment at no cost to you.*
- *All we ask is that you provide a suitable power supply.*
- *Our service back up ensures that your customer can expect a perfectly working machine.*
- *You share the revenue, remove your costs and increase your business.*

## FEATURES AND BENEFITS:

- The "PREMIUM Plus" Electronic Tire Inflator is a unique, fully automated digital system. It increases or decreases the pressure of tires automatically, to user's preset pressure.
- User friendly, fast and accurate.
- Built-in heater for all weather conditions, with low power consumption.
- Hermetic design, for indoor or outdoor use.
- Vandalism resistant (unbreakable).
- Touch sensitive keyboard: Lifespan 30 million operations.

## TECHNICAL SPECIFICATIONS:

### ELECTRONIC TIRE INFLATOR

- Model: Premium Plus.
- Voltage Choices: 90 <=> 240 VAC.
- Power Consumption: 16 W.
- Operation Temperature Range: -40 °C (-40 F) <=> 70 °C (158 F).
- Maximum Inflation Pressure: 10 bar (145 PSI).
- Accuracy: 0,01 bar (0.15 PSI).

### TOWER (CABINET):

- Construction material: Aluminum 3 mm.
- Finish: Powder coating.
- Construction type: 2 modules (1 bottom part - 700 mm high and na upper part - 750 high).
- Height: 1450 mm.
- Width: 550 mm.
- Depth: 550 mm.

### COMPONENTS:

- Compressor: 3/4 HP - 113 L/min 240 VAC - 50Hz.
- Air Hose Reel: 7 m - 3/4" Rubber Hose (20 bar max.) with a open end twin chuck connector.
- Water Hose Reel: 7 m - 1/4" Rubber Hose (20 bar max.) with a water tap.
- Coin Mechanism: Mechanical Coin Mech with a block coil (12 VDC).
- High Safety Vault.
